## Free Phone Cards

**Home**

*Rechargeable at 13.9 cents/minute  
with no connect fees, no gimmicks, no  
kidding*

**Samples**

The customphonecard.com [freephonecard](#) features the very low flat rate of just **13.9 cents/minute** for domestic USA long distance calls with **no connect or other hidden fees**. And, when you activate your card, we will give you an additional **30 minutes of free long distance**. Other cards advertise lower per minute rates but have connect, administrative and/or other fees buried in the fine print that make the actual per minute cost much higher. Please read below for all of the details about how to get, activate and use the freephonecard.

**FAQ**

**Email**

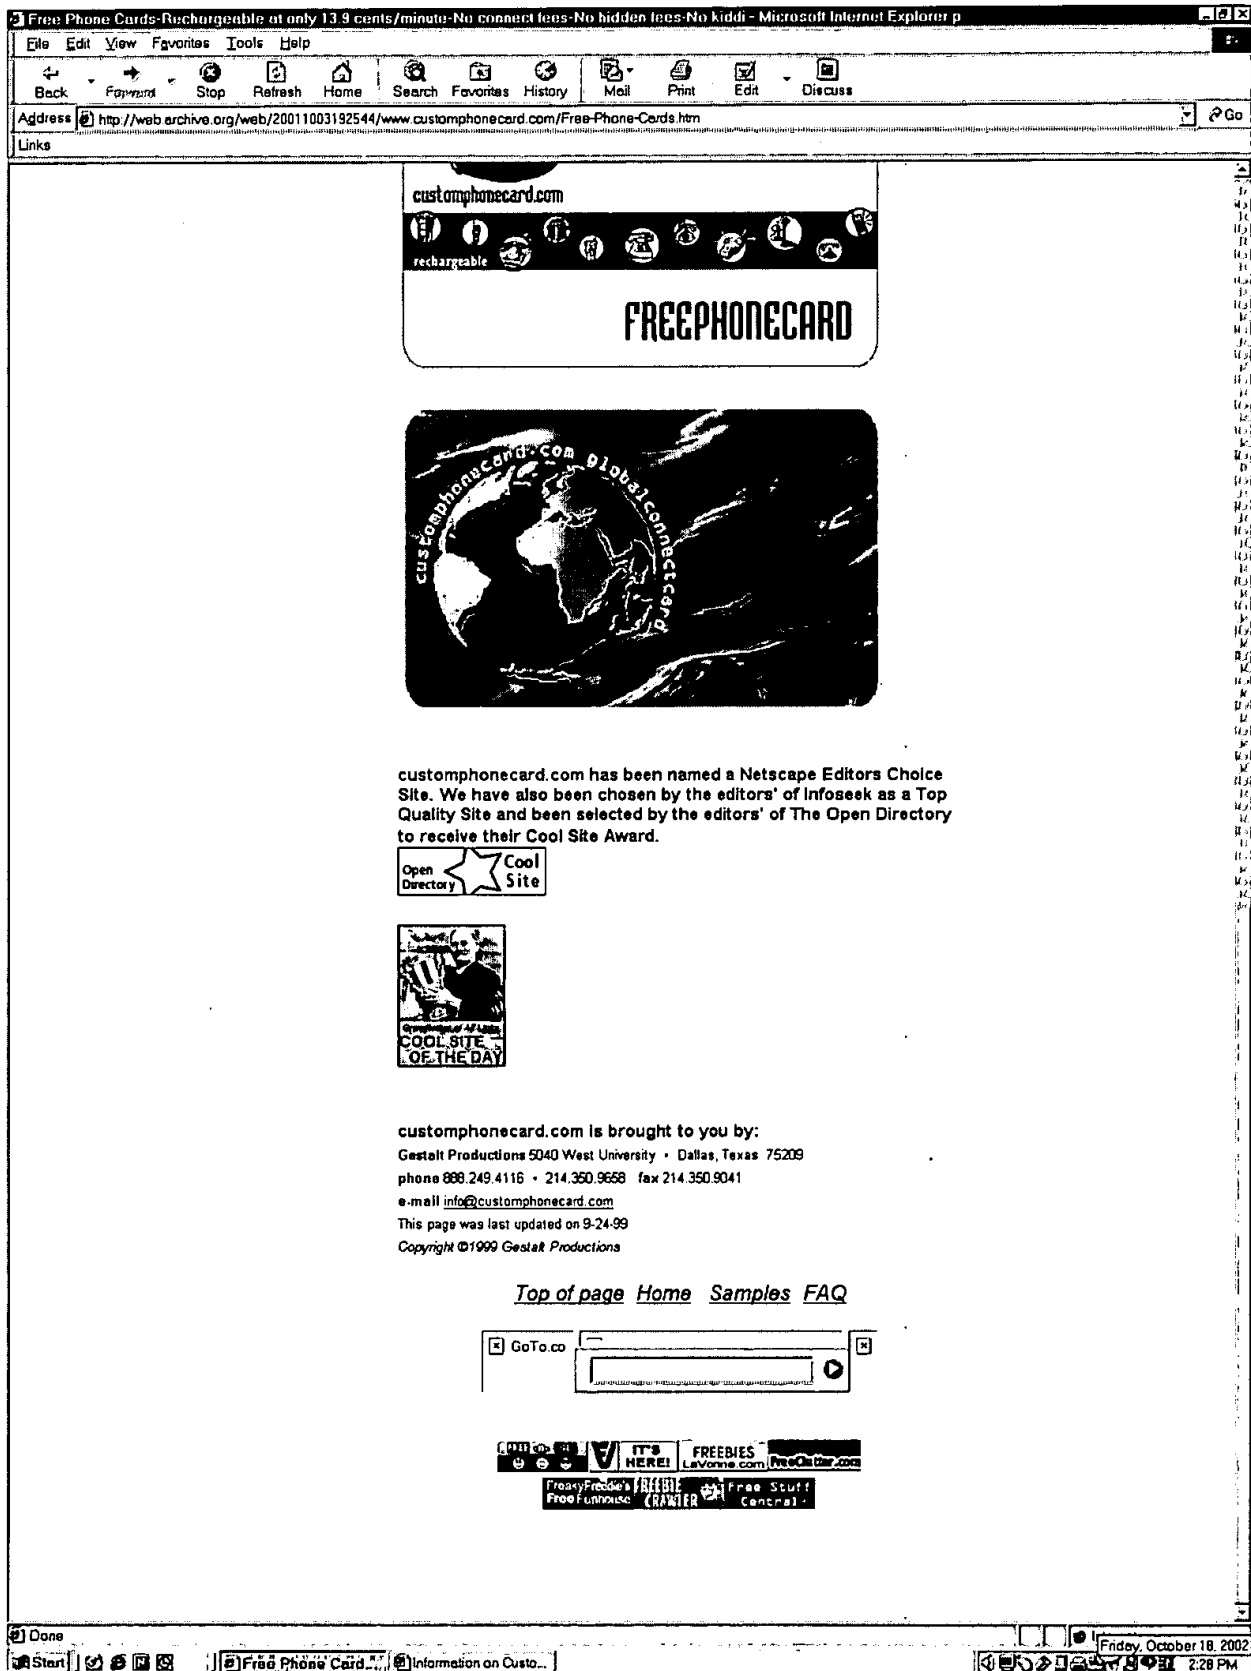

To get a freephonecard or [globalconnectcard](#) which is also free and has the same great rates and features, [email us](#) with your name and address. We will send one of our cards to you at absolutely no cost. Tell your friends about the freephonecard or globalconnectcard and you will receive an **extra 30 minutes of free long distance** for each card activated.

To activate your freephonecard or globalconnectcard, just charge a minimum of \$20.00 worth of 13.9 cents/minute long distance time to the card. Then we will add 30 minutes of free long distance time on top of that. That's it. There is no catch, no gimmick, no kidding. You can also call overseas with your freephonecard or globalconnectcard at equally low rates. The only fee charged on the freephonecard is a payphone surcharge of 30 cents required by the FCC for all calls originating from a payphone.

For additional information about free phone cards or custom phone cards, email us at [info@customphonecard.com](mailto:info@customphonecard.com), call Brian Welker at 888.249.4116 or take a look around at the rest of our site.

**Pre-paid Phone Cards**  
**LOW INTERNATIONAL AND DOMESTIC RATES**  
**Wholesale and Retail**  
Lean Communication Services offers a range of pre-paid phone cards with unbeatable rates for calling from USA all over the world.  
**Here is the process:**  
1. USE the rate calculator below to find the best deal calling the country of your preference. Choose the card you want.  
2. PRINT resulting card information. It contains your access numbers and instructions - **this is your calling card**.  
3. CALL US **(800) 664-8848 9:00am-6:00pm ET Monday thru Saturday** - we will process your order and give you your PIN number over the phone. Write down your PIN# in the space provided on your card info page - **and you are ready to start calling.**

---

Select a Country you will call

Area code you will call from  (USA only)  
The cards we carry have different rates for local access (when access phone number is in your area) and toll-free access (when you call an 800 number). So we need your area code to find the best deal for you.

The length of conversation, min   
We need to know the average length of your conversation to calculate the cost. Different cards have different connection fees for the first minute, so the card best for long conversation maybe not so good for short, and vice versa.

Choose the price of a card

The price of the card will define how many minutes you will get if you use entire card on one call to selected country, counting connection fee.

BKT is very cheap to call anywhere in thailand ( but cheapest to call other provinces/mobile if you talk less than 15 minutes ).  
 If you always call bangkok/other provinces/mobile ( Mix them up ) and always talk less than 15 minutes, BKT is your choice.  
 However, if you talk longer than 15 minutes, you should have one more Udiol Card to use when you know you will talk longer than 15 minutes. It'll save you a lot more !! For example, when you call someone in bangkok/other provinces/Mobile, use BKT first. If your friend don't have time to talk with you, it's fine for you. On the other hand, if your friend has time to talk with you, just hang up and call again with Udiol card...it'll save you a lot more !

*Business Customers.*  
Business customers who would like to arrange for a sales consultant to visit them on site should call 1-800-480-4PCS to locate the nearest sales office. Each sales office is staffed with individuals who are familiar with the needs of your specific business.

**Activation**

If you already have a Sprint PCS Phone, you'll need to activate it before you can use it. Just call toll free, 1-888-715-4588 (in southern California, call 1-800-CLARITY) from any phone other than your Sprint PCS Phone.
